September 15, 2017

Dear Valued Customer,

It is our intent to have a relevant published price list for Beam Mill Products. Effective immediately on Monday, September 18th we are adjusting our published price list for most structural products down by \$4.00/cwt or by \$80 per ton. All manufactured housing beam pricing will remain unchanged.

This is a direct result of low priced imports and the subsequent unprecedented level of discounting occurring in the market.

All current competitive allowances offered by Nucor to meet foreign offers or domestic competitors' unpublished discounts or rebate programs are immediately discontinued.

As always, we will continue to monitor market conditions and respond accordingly in order to provide you with a competitively priced product.

If you have any questions please contact your District Sales Manager or your mill based contact at (877) 722-3261.

Thank you for your continued support of Nucor Steel Berkeley.

Sincerely,

Andrew Fletcher
Beam Mill Sales Manager
